## Safety instructions

In the current context and following the indications of the Vigipirate Plan, we invite you to read this regulation before the festival.

Security guards will always ask you to open your bags, thank you for cooperating. The decisions of the security service can not be disputed. Anyone going beyond these rules will have to bear the full consequences.

In case of control, a person carrying or carrying away from his home and without legitimate reason a weapon of this category incurs a penalty of 3 years of imprisonment. Weapons (sword replicas, sharp and / or blunt weapons, ...) are strictly forbidden, with the exception of replicas made by the participants, and only if these replicas do not constitute any danger for others.
